

RED Program- Frequently Asked Questions

1. When are RED products available?

If orders are received by the 15th of November, 2009, products will be delivered in January 2010, prior to the start of the new school year.

2. What are the minimum quantities that need to be ordered for each style?

The minimum order per style is one carton. Please refer to the RED product order form (on web site) for the quantities in each carton. If one carton contains more units than your school needs, please contact us about splitting cartons with other schools.

3. What is included in the price of each RED product?

The price includes:

- 1) The RED product
- 2) 30% rebate to use for Replas recycled furniture
- 3) Collection and recycling of the used RED products
- 4) Sponsorship of an annual Green Bag Drive for the school
- 5) Collection and recycling of waste bags generated by the Green Bag Drive
- 6) Free "decorate your own" white, reusable bag for each student at the end of the year which they can submit in the "art bag" competition
- 7) Enrolment in the Wise Choice recycled furniture design competition.

4. Do the RED products need to be collected within 12 months, or can the school use them for a longer period?

The school can decide how long they would like to use the RED products before they are collected. We just ask that all RED products are ready for collection at the same time. We cannot arrange multiple pickups.

5. How are the RED products packed for collection?

RED products will be delivered to the school in cardboard cartons. We ask that the school flatten the cartons and save them to be used again for RED product collection. Used RED products must be packed in the original cartons in order to be collected free of charge. Products not packed in the original cartons may not be accepted or may incur a transport fee.

6. How does the 30% rebate work?

Upon settlement of the invoice for RED products, Green Bag will mail the school a voucher valued at 30% of the cost of the RED products that were purchased. This can be used as credit toward any item in the Replas range. The vouchers are valid for 24 months and can be combined.

7. Are RED products available with the school name and logo?

Yes, the school name and logo can be printed on the RED products for an additional charge. Please refer to RED Order Form.

8. Can RED products be made in the school colours?

RED products are available in navy or dark green. For large orders, we can dye the fabric to match the school colours. Please contact Green Bag to discuss.

9. Does the school need to be part of the RED program to enroll in the Wise Choice Competition?

Yes, the school needs to be a participant in the RED program.

10. Does the school need to purchase RED products to be part of the program?

Yes, the RED program is funded solely by the sale of RED products. They are a key part of the educational program that gives students a “hands on” recycling experience and offers schools practical, inexpensive, recyclable products.
